

ANNOUNCEMENT

The Bucharest University of Economic Studies is organizing a selection and recruitment process for **two Postdoctoral Researcher 8 / Postdoctoral Researcher 9** within the „*Non-Gaussian self-similar processes: Enhancing mathematical tools and financial models for capturing complex market dynamics*”, - 760243/28.12.2023,, project code no. 194/31.07.2023

The employment offered for this position is part-time, with a maximum of **42** working hours per month, which may be unevenly distributed.

The gross hourly wage for this position is: **96,60** lei per hour.

The individual contract of employment will be concluded for a fixed-term period of time until the **30th of June, 2026**.

A. To participate in the competition, candidates must meet the following general and specific conditions:

1. General conditions:

- a) has Romanian citizenship, citizenship of other member states of the European Union, of states belonging to the European Economic Area and/or foreign states as defined by art. 2 lit. a) of GEO 194/12.12.2002 with subsequent amendments and completions, respectively persons who do not have Romanian citizenship, citizenship of another EU member state or citizenship of the Swiss Confederation;
- b) has the minimum age regulated by the legal provisions;
- c) has full capacity;
- d) has a relevant state of health for the position he is applying for.
- e) meets the conditions of education and, where appropriate, seniority or other specific conditions by the requirements of the post to be filled;
- f) has not been convicted of a crime against humanity, against the State or authority, or of an offence committed in the course of or in connection with the performance of his or her duties which obstructs the course of justice, or forgery or corruption, or of an offence committed with intent which would make him or her incompatible with the performance of his or her duties, unless he or she has been rehabilitated.

2. Specific conditions:

- a) level of studies: higher education, completed with a PhD;
- b) field of study: economic sciences: the field of international economic relations;

- c) **Mandatory condition:** *the candidate must hold a PhD degree and have research experience of no more than 8 full equivalent years, from the date of obtaining the first PhD degree(the date of the ministerial order), but without exceeding 10 full time equivalent years under the conditions as stated in the European Research Executive Agency(REA).*

The date of obtaining the first PhD is calculated according to the date of call.

d) other specific conditions:

- i. research experience in the use of the quantitative methods(statistics, econometrics, time series analysis) in the interdisciplinary field of finance-marketing, applied to the financial markets and products, including the assessment of risk and customer behavior;
- ii. experience financial marketing(analyzing investor/ customer behavior for investment and insurance products, segmentation and testing marketing response to risk and return), as well as previous participation in interdisciplinary finance-marketing research projects will be considered an advantage.

Skills:

1. Technical skills:

- Advanced level of use when it comes to the E-views/ Stata/ SPSS;
- The ability of developing and implementing complex financial models;
- Solid understanding of the financial theories and instruments.

2. Analytical skills:

- The ability of analyzing and translating complex data, identifying trends and developing recommendation formulas based on analysis.

3. Communication skills:

- Excellent written and verbal communication skills, to present research results clearly and concisely.

4. Teamwork:

- The ability of effectively working within an interdisciplinary team, collaborating with other researchers to the objectives of the project.

Specific requirements

1. Foreign Languages:

- Advanced knowledge of English (both written and spoken) in order to be able to access and disseminate knowledge from international literature.

2. Publications and scientific papers:

- The candidates must be able to demonstrate their contributions and publications in the field of statistics, stochastic modelling in finance, risk management, sustainability, international economic relations through reports that are proof of their expertise and independent research capacity.

- It will be considered an advantage if the candidates show proof of their publications in Non-Gaussian stochastic modelling in mathematical finance in papers that are relevant for the scientific community.

3. *Innovation Capacity:*

- An innovative attitude and creative thinking to develop new methods and tools.

4. *Research Ethics:*

- Deep understanding of ethical principles in research and commitment to academic integrity.

5. *Availability for Professional Development:*

- Availability to participate in conferences, workshops and other forms of continuous professional development.

6. *Flexibility and Adaptability:*

- Ability to adapt to project direction changes and to respond to unexpected challenges.

The candidates will have to show proof of a portfolio with their previous projects and scientific publications that are relevant for the evaluation of quality and relevance of their experience, taking into account the abilities and specific requirements previously mentioned.

B. The selection process will consist of:

- 1. Step 1 - Evaluation of selection files;**
- 2. Step 2 - Structured interview** (in the situation where at least 2 candidates do not register, the competition committee can decide to simplify the procedure and carry out the selection without conducting the interview);
 - *the date and time of the interview:* to be announced at the same time as the results of the selection files evaluation are published;
 - *the place of the interview:* to be announced at the same time as the results of the selection files evaluation are published,

The tests are eliminatory, the minimum score for each test is 50 points.

C. Topics and bibliography:

The topic is elaborated in order to attract candidates with a deep theoretical understanding and with the ability of applying their knowledge in solving complex problems in finance, this way opening the path to significant innovations in the field.

1. Topics:

1.1. Fundamentals of Stochastic Modeling in Finance:

The fundamental principles and techniques of stochastic modeling, exploring their applicability in the analysis and prediction of financial markets.

1.2. Advanced techniques in stochastic modeling for the evaluation of the financial assets:

The study of advanced stochastic modeling techniques (both Gaussian and Non- Gaussian model) in mathematical finance with an emphasis on the price dynamics of sustainable financial assets.

1.3. Risk and uncertainty in stochastic models:

Analysis of how the Gaussian and Non-Gaussian stochastic models can quantify and manage risk and uncertainty in sustainable financial markets.

1.4. Modeling volatility and correlations in markets using stochastic processes:

Exploring the use of Gaussian and Non-Gaussian stochastic processes in modeling volatility and correlations between sustainable financial instruments.

2. Bibliography:

2.1. Books:

Fractals and scaling in finance

Mandelbrot, Benoit B.

Sel. Works B. B. Mandelbrot

Springer-Verlag, New York, 1997, x+551 pp.

ISBN: 0-387-98363-5

MR2502480 - Option pricing in fractional Brownian markets

Rostek, Stefan

Lecture Notes in Econom. and Math. Systems, 622

Springer-Verlag, Berlin, 2009, xiv+137 pp.

ISBN: 978-3-642-00330-1

MR4485442 - Continuous time processes for finance—switching, self-exciting, fractional and other recent dynamics

Hainaut, Donatien

Bocconi Springer Ser., 12

Springer, Cham; Bocconi University Press, [place of publication not identified], 2022, xviii+345 pp.

ISBN: 978-3-031-06360-2; 978-3-031-06361-9

MR1422250 - Introduction to stochastic calculus applied to finance

Lamberton, Damien; Lapeyre, Bernard

Chapman & Hall, London, 1996, xii+185 pp.

ISBN: 978-1-58488-626-6

Python for Data Analysis

Wes McKinney..

(O'Reilly). 2022 Wes McKinney,

ISBN: 978-1-098-10403-0

Python for Finance: Mastering Data-Driven Finance

Yves Hilpisch.

O'Reilly Media, Edition. 2nd, 2019.

ISBN: 978-1492024330.

Mastering Python for Finance: Implement advanced state-of-the-art financial statistical applications using Python, 2nd Edition

James Ma Weiming.

Packt Publishing, 2019.

ISBN: 978-1789346466.

2.2. Articles:

MR4028644 - Pricing derivatives in Hermite markets

Stoyanov, Stoyan V.; Rachev, Svetlozar T.; Mitnik, Stefan; Fabozzi, Frank J.

Int. J. Theor. Appl. Finance **22** (2019), no. 6, 1950031, 27 pp.

MR4577885 - Volatility is rough

Gatheral, J.; Jaisson, T.; Rosenbaum, M.

World Sci. Lect. Notes Finance, **6**

World Scientific Publishing Co. Pte. Ltd., Hackensack, NJ, 2023, 127–172.

Fractional Brownian motion with zero Hurst parameter: a rough volatility viewpoint

Neuman, Eyal; Rosenbaum, Mathieu

Electron. Commun. Probab. **23** (2018), Paper No. 61, 12 pp.

MR4698114 - Short-Time Asymptotics for Non-Self-Similar Stochastic Volatility Models

Giorgio, Giacomo; Pacchiarotti, Barbara; Pigato, Paolo

Appl. Math. Finance **30** (2023), no. 3, 123–152.

Local volatility under rough volatility

Bourgey, Florian; De Marco, Stefano; Friz, Peter K.; Pigato, Paolo

Math. Finance **33** (2023), no. 4, 1119–1145.

Markovian approximations of stochastic Volterra equations with the fractional kernel

Bayer, Christian; Breneis, Simon

Quant. Finance **23** (2023), no. 1, 53–70.

Stationary Heston model: calibration and pricing of exotics using product recursive quantization

Lemaire, Vincent; Montes, Thibaut; Pagès, Gilles

Quant. Finance **22** (2022), no. 4, 611–629.

Fractional stochastic volatility correction to CEV implied volatility

Kim, Hyun-Gyoon; Kwon, Se-Jin; Kim, Jeong-Hoon Quant. Finance **21** (2021), no. 4, 565–574.

The overdamped generalized Langevin equation with Hermite noise

Tudor, Ciprian A.

Fract. Calc. Appl. Anal. **26** (2023), no. 3, 1082–1103.

D. Contents of the competition file:

1. A record of the enclosed documents
2. Application for the recruitment and selection process addressed to the Rector of ASE;
3. Copy of the identity document or any other document attesting the identity, according to the law, as the case may be;
4. Copy of marriage certificate or proof of name change, if the candidate changed his name (proof of name change);
5. The criminal record or a self-declaration that it has no criminal record that makes it incompatible with the position for which it is applying;
6. Medical certificate attesting the appropriate health status issued no more than 6 months prior to the selection by the family doctor of the candidate or by the competent medical units, or the declaration on its own responsibility, with the obligation to fill in the selection file with the medical certificate at the latest by the date of the first test of the recruitment and selection process, if applicable
7. Declaration on own responsibility if the candidate has or does not have a husband/wife or relatives and affines, up to the III-th degree inclusively, who are employees of the Academy of Economic Studies of Bucharest in a position of leadership, control, authority with the post taken out for selection and not the post, to which they apply, is not in a position of leadership, control, authority with husband/wife or relatives, up to and including III degree, employees of the University;
8. Statement for the processing of personal data;
9. Curriculum vitae in European format (www.cveuropean.ro/cv-online.html) – signed and dated on each page;
10. Copies of documents that certify the completed level of education and any other additional documents that attest to the completion of specializations, as well as copies of documents certify the fulfilment of the specific conditions required for the position, as outlined in Chapter A, point 2.

E. Contact information:

The selection files are to be submitted on the **10th of March, 2026, by 16h00**, at the ASE Registrar's Office, in the "Ion Angelescu" Building, Bastille Fall, ground floor, room 0016, or online using the email addresses of the contact people below.

Contact:

- For information regarding the responsibilities of the position being applied for: fondurieuropeane@ase.ro
- For information regarding the recruitment and selection process: dru@ase.ro
- Contact person: cristina.padure@ase.ro

F. The calendar of the selection process:

No. crt.	ACTIVITY	Date
1.	Posting the announcement	02.03.2026
2.	Submitting the candidates' competition files at the ASE Registrar's Office	10.03.2026
3.	Selection of application files by the members of the competition committee	11.03.2026 - 12.03.2026
4.	Publication of the results of the selection of the application files	13.03.2026
5.	Submission of appeals regarding the results of the selection of application files	16.03.2026
6.	Publication of the results of the appeals	17.03.2026
7.	Interview	18.03.2026
8.	Communication of the results after the interview	19.03.2026
9.	Submission of appeals regarding the interview results	20.03.2026
10.	Publication of the results of the appeal	23.03.2026
11.	Publication of the final results	23.03.2026
12.	Appointment to the position	After approval from the Board of Trustees
